RE: SMOKING COMPOSITIONS CONTAINING ACYLPYRAZINE ESTER FLAVORANTS/PM 1146
Your file PM-83-1

Dear George:

The inventors are quite happy with the draft application. They and I have just a few suggestions which are enclosed herewith.

Very truly yours,

G. Esler Inskeep

Corrections for Draft Application PM 1146

We note that all examples are written in present tense. To me, this implies that all are paper examples, which these are not. Unless there is an argument to the contrary, I suggest putting them in the past tense.

page 1, ¶2, line 2	are more limited
page 6, line 15 and structural formula:	position -(2)

We note that on page 7 and elsewhere, position -(3) designates the carbon ortho to the acyl. Since this is a different carbon from that ortho to the halogen, ambiguity will be avoided if the latter is designated (2).

page 9, ¶4, line 4	replace "acetone" by ethanol
page 11 structural formula and line 2	See page 6, above
page 14, line 2	cellulosic or other
page 14, bottom of page	misspelling
Claim 2	and other carbohydrate materials.
Claim 3 structural formula and last line	position -(2) This makes it consistent with specificaion
Claim 19 second structural formula and last line	position -(2)
Claim 24 second structural formula	position -(2)
page 38, line 5	position -(2)
